Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stonyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:
Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras. 30 guineas.

St. Mary's Preparatory School
In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.
Rector—Rev. William P Bourke.
Matron and Professor of French and Music—Miss Finneran.
English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:
Pension, including all extras, 35 guineas per annum.
Pension, exclusive of extras, £30.

(HAVAS' AGENCY)

Paris, 14th.

A Bill supported by several members of the Radical Left, proposing a plenary amnesty, was presented to-day in the Deputies. The Government opposed it vigorously, and it was thrown out by a large majority.

THE SITUATION.

If there are some scenes that baffle all description and must be witnessed to be understood—if there are moments when political frenzy reaches a pitch that sober reason is defeated—if there are periods in the life of a nation as in that of an individual when everything assumes a deeper gloom, and hope deceives—then we fear we must admit that Sunday's demonstrations in this city rank in these categories. In an experience of Buenos Ayres that spans a quarter of a century, chequered by revolution, rebellion, invasion, civil war, siege and state of siege, we thought we had witnessed every political throe to which a young nation is exposed; but the affair of Sunday dwarfs everything; for whilst the splendid turn out of the Tiro Nacional must naturally enlist one's sympathy for the cause they so defiantly represent, the night entry of the troops of the Line, through the very heart of the city, displayed a decision on the part of the National Government which astonished everyone.

The whole affair reminded one so much of the last insurrection of the people in the first great French Revolution (11th Vendemiaire) that it seemed like history repeating itself. The decree of the Convention ordering the immediate dissolution of the electoral parties in Paris, which was resisted by the Paris National Guard, was in truth Avellaneda's manifesto and decree ordering the disarmament and resisted by the Tiro Nacional; and we only wanted another Napoleon Bonaparte to bring in the Artillery from the Chacarita and mount the pieces in Calle Florida and plazas to perfect a scene perhaps the greatest of all standpoints in French history. Luckily the terrible defeat of the sections in Paris had not to be enacted in this city, but we were on the edge of an abyss on Sunday when two thousand two hundred armed Porteños marched through the Plaza Victoria in defiance of the very Government whose members were assembled within a stone's throw, in the Plaza 25 de Mayo; and again a few hours later when, but for the admirable patriotism and presence of mind of Rufino Varela, Santiago Calzadillo, and a few others, the assembled crowd in the Plaza Victoria would have attempted to stop the National troops as they marched through to their barracks.

The excitement in the city defies all description. At daybreak on Sunday it was known that in the night the whole National army at the Chacarita had marched to Palermo and occupied the grounds of the Tiro Nacional and Hippodrome. All the police, etc., of Flores and other suburban juzgados were at once dispatched to Santa Catalina, where, according to general report, Col. Lagos had assembled one thousand men, chiefly from the corrales and southern outskirts. At noon the Tiro Nacional men began to assemble at their various cuarteles; the streets were crowded with civilians hurrying to and fro with rifles, and mounted police carrying swords and rifles. At one o'clock the Tiro Nacional men began to assemble at the Plaza Lorea, and at half-past one they formed in rank and began their march. All the shops were closed, but the streets were crowded with sight-seers. Colonels Campos and Arias and another headed the procession on horseback, and many young men of some of the best families, dressed in the Tiro tunic and with splendid swords galloped through the streets, either the bearer of despatches or to make way for their comrades on march.

All the balconies and windows and azoteas of Calles Victoria and Rivadavia were crowded. The various armed companies and many companies without arms, in whose ranks we noted some of our most respected fellow-citizens, marched down Calle Victoria, turning into Peru, down Florida to Cuyo, up San Martin, the Plaza and Bolivar, down Moreno, in front of the Government House, where they presented arms before the Governor and his Ministers, who were on the azotea; thence along Moreno back to the Plaza Lorea, where they dispersed. The order and discipline was really marvellous; at every corner company after company, as it passed, was welcomed and cheered. The crowd in the Plaza Victoria was not to say large, but Calles Victoria and Florida were very thronged. Meanwhile, and whilst all this martial array was going on, President Avellaneda and his Ministers, with the exception of Sr. Pellegrini, who was with the troops at Palermo, held a meeting at the National Government House, and the President addressed the crowd; but the shouts, noise and music in the Plaza Victoria drowned everything, and it was impossible to hear the President, whilst a pickpocket, caught in the crowd, gave rise to a scare and the people took to their heels, without knowing the reason why. At the National Government House the troops hardly numbered 300 men. About 3 o'clock the excitement cooled, and people believing the affair over, returned to their homes.

At 4 o'clock p.m. the news spread like wild-fire through the city that the National troops were marching from Palermo into the city, and in a very short time the Plaza and Paseo Julio were thronged with spectators. It was dark, however, before the troops reached the Plaza—cavalry, infantry and artillery. Boletines published by the *Buenos Aires* were freely circulated inviting the people to open revolution, to pull up the pavements, erect barricades, etc, but although the town could not be more excited, this call to arms found no echo. At various houses in different quarters of the city pickets of Tiros Nacionales of 150 men each were quartered, and these held the balconies and azoteas. Surrounded by so many dangers, the National Government did not abate its energy, and the bringing the troops into the city was followed by the rumour of a declaration of a state of siege. Up to a very late hour people remained gaping in the Plaza Victoria, as there was a hushed whisper that the Tiro Nacional would occupy it; but the Policia, it seems, had 1,500 armed men inside, and about midnight people began to see the folly of remaining all night looking at nothing. The city slept—and thus closed one of the most exciting days we ever witnessed in this city. No lesson is more strongly impressed upon the mind by the day's proceedings, than that the intensity of revolutionary fervour exists far more in the newspapers than in the people.

A NEW PAVEMENT.

No more opportune moment could occur to speak of the advantages of a new pavement than when political excitement reaches the barricading pitch. As we walked down Calle Florida on Sunday, looking at the splendid turn-out of the Tiro Nacional and reading the bulletin of the *Buenos Ayres*, which called on the people to raise barricades, we thought of Mr. Forrester's new pavement, the 'sine qua non' for Buenos Ayres in election times. Mr. Forrester's compressed asphalt bricks, dull and pitchy as they look, are pregnant with peace and order, and would make our streets much evener to march or drive through than the present petrified kidney pavement, which gives us all corns. The asphalt block pavement has been tried in many countries, and its excellence so admitted that it was at once adopted. Lord Mayor Guerrico ought to pay Mr. Forrester a visit and see the blocks, which, at a very small outlay, can be manufactured in this country. We extract the following from a neat pamphlet published by the company, which gives the fullest particulars about this great Municipal improvement:—

The Compressed Asphalt Block Company Pavement possesses all the merits and none of the defects of the pavements now in use.

They make no attack upon any of the pavements which during the last few years have contended for public favour; but, leaving them to be judged by the experience of the cities where they have been laid, present the claims of their own pavement, with such evidence as they think will establish the absolute truth of each particular claim.

They emphatically declare this pavement to be no longer an experiment; for, years of trial, have thoroughly proved its durability and other excellences.

No doubt the query will suggest itself—Why, if this pavement be so superior to all others, has it not been more extensively used? The answer is, that for the past eight years the owners of the patents have been seeking a press capable of continuously manufacturing these blocks under the tremendous pressure necessary to make them of the required density. These efforts have hitherto proved futile; but this Company have at last obtained a press (A. F. Nagle's patent) that accomplishes the work.

The block is manufactured in the following manner: It is composed of finely crushed limestone and refined and tempered Trinidad asphaltum; these materials are thoroughly mixed while hot, and in that state are moulded into blocks of the uniform size of twelve inches by four inches by five inches. Each block is subjected to a uniform pressure of one ton per square inch, or about fifty tons per block. This degree of pressure has not been arbitrarily assumed to be sufficient to make the most perfect block, nor is it to be supposed that a greater pressure would make a better block; for careful and repeated experiments were made with a hydraulic press upon the materials composing the block in order to ascertain their exact degree of compressibility. In these experiments the materials were subjected to a pressure of five thousand pounds per square inch, and it was thereby demonstrated that their practical limit of compressibility is obtained by a pressure somewhat below two thousand pounds per square inch. Therefore the standard of pressure of one ton per square inch was adopted as being that which secured the desired result. The press used by this Company has a steam cylinder of forty inches in diameter, working under a steam pressure of ninety pounds to the square inch; thus aggregating a total net pressure of one hundred and twelve thousand pounds, that is brought to bear directly upon each block, and any desired increase of pressure might be obtained by changing either of these two factors.

The block of the size above mentioned has been found by experience to be the best suited for street pavement, but the Nagle Press is capable of producing blocks of almost any required size or shape.

For laying the pavement the natural bed of the street is graded to correspond to the surface of the finished street, allowing for the depth of foundation and pavement, and is rammed to an unyielding surface. On this is spread a coating of concrete at least 4 inches thick, which is thoroughly rolled and rammed."

We should like to see the Calle Rivadavia from the Plaza Once to Calle Callao paved with these blocks.

The Gironde's Mails.

London, Jan. 18th

Russian and Prussians officers have come into collision at a garrison dinner on the frontier, given by the Russians. Heated with wine, the hosts began to talk politics; when the guests differed with them the Russians drew their swords. The Russian colonel had some difficulty in protecting the visitors, and had to send them back across the frontier under a strong escort.

The incident at Pesth, which led to an attack of the populace upon the Club of the nobility, has not terminated. The death is hourly expected of Deputy Verhovay, who was shot in a duel by Baron Maitheny; and as it has transpired that in the fight the noble disregarded the rules of duelling, and as on Tuesday night the soldiery and police are charged with having behaved brutally to women and children, while they were clearing the streets, the excitement is becoming greater from hour to hour. Since the Minister President is considered always to side with his class, even when they offend the laws, the present outbreak has somewhat of a revolutionary character.

The Chancellor of the Exchequer was enthusiastically received at Stroud last evening, when he attended a Conservative gathering and delivered a speech bearing upon the whole policy of the Government. He pointed out that the coming election would not affect merely the fortunes of a political party, but that other countries would watch its progress eagerly to see whether the policy pursued by the Ministry, during the last three years especially, would be maintained or reversed. He strongly repudiated the charges of bad faith so constantly brought against the present Administration by those who wished to take their place, and added that the leaders of the Liberal party had produced an impression abroad that England could only talk and scold. Referring to the distress in Ireland, he made a statement of the measures the Government had taken to alleviate it.

Mr W. H. Smith, the First Lord of the Admiralty, was the principal speaker last evening at the annual banquet of the Sutton Conservative Association. Acknowledging the toast of her Majesty's Ministers, the right hon. gentleman remarked that the policy of the Government in the East had been a policy which had the support of the nation. He maintained that that policy had not been provocative or warlike, but, being essentially firm, had tended to avert the perils of international conflict. The Government had no hostility to Russia: they desired only relations of perfect amity with that Power, and there was no reason why we should not be at peace with her, if Russia remained on honest terms with us. As to Afghanistan, it was the desire of the Government to avoid annexation as far as possible, but certain posts must be held and, perhaps, slight deviations might have to be made from the terms of the Treaty of Gundamuck. Mr Smith finally alluded to the question of finance, and replied to the criticisms contained in some recent Liberal speeches on this subject.

The Bishop of Manchester was married yesterday at St Peter's, Onslow-gardens, to Miss Duncan, of Bath. The Dean of Westminster was the principal officiating clergyman. After returning to the residence of the bride's cousin, the Bishop and Mrs Fraser left London for Torquay. His Lordship, on the previous day, sent £250 to the secretary of the Manchester and Salford District Provident Society, for distribution among the deserving poor, and £50 to the Secretary of the local Young Men's Christian Association, for gifts to persons who have seen better days, in recognition of the kindly interest taken by the community in his marriage.

A meeting of Old Blues was held at Christ's Hospital yesterday, to promote a memorial of Sir Louis Cavagnari, a former scholar. A subcommittee was appointed to obtain subscriptions, and the form which the memorial shall take was deferred to a future meeting.

The remains of the late Mr Serjeant Parry were interred in Woking Cemetery yesterday. A large number of private and professional friends of the deceased gentleman were present, among them being the Attorney General and a large number of Queen's Counsel.

The Duchess of Marlborough's Irish Relief Fund amounts to nineteen thousand pounds, which includes six thousand pounds from the London Mansion-house Fund. The Dublin Mansion-House Fund is now upwards of seven thousand pounds, including two thousand pounds from the Mayor of Sydney's Fund.

Several thousands of the unemployed of Dublin marched to the Mansion House yesterday, and the Lord Mayor, Mr E. D. Gray, M.P. having been sent for, he addressed them, saying that twelve months ago, when the Irish members in the House of Commons declared what was about to happen in Ireland they were met with jeers and scoffs. From the information he had received he believed that in many parts of the country people would be dying from starvation within three weeks.

The Volunteer returns for the past year, a full detail of which we publish to-day, show that the enrolled strength of the force has risen from 203,213 in 1878 to 206,250, and the efficients from 194,181 to 197,485, or a per centage of 95.54 against 85.55. The proficients, officers and serjeants, are likewise increased to the highest figures yet known, being 5,586 and 11,825 respectively, or a total of 17,411, whereas in 1878 they were 5,536 and 11.518. The increase is general throughout the country, and in all arms, with the exception of light horse and mounted rifles, which show a diminution.

The North British Railway Directors yesterday resolved to apply to Parliament for power to rebuild the Tay Bridge at a lower level, and to connect a new bridge alongside and connected with the present one. At the same time it was determined to proceed no further than the foundations with the Firth of Forth Bridge until all the information has been obtained which the forthcoming Board of Trade inquiry is likely to furnish. The Dundee Town Council passed a resolution in favour of the reconstruction of the Tay Bridge, but with a double line of rails and at a lower elevation.

The charges against Alexander Schossa of shooting at two priests in the Italian Church, Hatton Garden, were further proceeded with at the Clerkenwell Police court. It was not denied that the prisoner committed the offence, but it was intimated that a plea of insanity would be set up. He was committed for trial.

Mr Frederick Manning, brother of Cardinal Manning, died at Leamington last evening, in his 84th year. The deceased was the eldest son of Mr William Manning, of Comebank, Sevenoaks, some time M.P. for Lymington, and Governor of the Bank of England. Deceased had resided at Leamington for many years in great retirement, devoting his wealth to the erection of Protestant churches, and supporting local charities and the poor.

On the Stock Exchange yesterday prices showed a considerable recovery, especially in certain Home descriptions. Consols for money and the account were unaltered at 97⅜ 97⅝. Among Home Railways Great Western rose 2⅛, Brighton 'A' 1¼ and the Scotch Lines 1⅜ to 1⅝, North-Western being quoted ⅞ higher. But Midland, Sheffield and Great Northern 'A' receded, and experienced no variation of importance. No gold operations were recorded at the Bank.

THE DISTRESS IN IRELAND.

A meeting of the Mansion House Relief committee was held in Dublin on Wednesday. The Lord Mayor presided. The cash statement showed that the total amount of subscriptions received up to the present was £4,114. A letter was received from Dr Gillooly, Roman Catholic Bishop of Sligo, making known the condition of the poor people of that diocese from detailed statements furnished by his priests respecting his own flock. He stated that the failure of crops, the loss and depreciation of live stock, and other causes of distress, which had been severely felt in other parts of Ireland, had pressed on them with exceptional severity: The potato crop was all but wholly lost in the county Roscommon. Scarcely one-tenth of it was fit for use. The hay was lost and the grass injured to a great extent on low-lying, undrained lands. The sheep, which constitute the chief source of prosperity, perished by disease from end to end of the county, in many cases to the utter ruin of graziers and farmers. Business has collapsed in the towns, tenants are unable to pay their rents, landlords themselves are straitened and embarrassed—in a word, distress is universal. The following sums were voted:—To Tubbercurry, £25; Arklow, £25; Ballintubber, £25; Oughterard, £30; Cahirciveen, £30. A sub-committee was appointed to investigate special applications for relief.

The Marquis of Hartington, M.P., has contributed £50 to the Duchess of Marlborough's Fund for the Relief of Irish Distress.

Some shocking revelations were made at the last meeting of the Killarney Board of Guardians. The master reported that on the previous day a woman with three children, one of whom was dead, applied for admission. She had walked with the children from Cahirciveen, a distance of 40 miles, and one of the children had died on the road from hunger and exhaustion. Sixty able-bodied men applied for work, but there being nothing for them to do, they were all, with their families, admitted into the house.

At the Tullamore Board of Guardians on Wednesday a letter was read from the Local Government Board stating that the Lieutenant could not sanction a loan to landlords for reproductive works, as it was not shown that any exceptional distress existed.

LATEST FROM BRAZIL

Rio de Janeyro, Feb. 8th 1880.

In January the Custom House of Rio collected the sum of 4,177:730$, against 3,733:123$ in January 1879. The receipts from importation were 3,581:693$, against 3,099:257$ in January 1879, and from exportation 596:036$, against 632:865$ in January 1879.

The Rio export of coffee in January was 3 12,312 sacks of 60 kgrs., against 214,408 sacks in January 1879, and the stock on hand in Rio at the close of January was 338,240 sacks against 34,000 sacks on January 31, 1879.

The Commercial editor of the *Jornal* estimates the next crop of coffee at from 4,000,000 to 4,500,000 sacks.

A decree, dissolving the Chamber of Deputies, is soon to issue, the Government having finally resolved to appeal to the country for its verdict upon the issue between the Government and the Chamber of Deputies, on one side, and the Senate on the other in regard to the convocation and instruction of a Constituent Assembly and to the powers inherent in the Deputies composing it, for the purpose of establishing direct election and of elevating the qualificatory income required for the exercise of franchise.

It is current that his Majesty the Emperor will consent to honor the inauguration of work on the construction of the Paranagua and Coritiba railway, the first railway in the province of Parana, and that he will leave for Paranagua shortly, accompanied by one or more of his Ministers. The capital for this railway has been raised in Paris by the Compagnie Grle. des Chemins de Fer Bresiliens.

The Engineer staff for the construction of the Parana railway is expected to arrive to-day from France.

The gross receipts of the 656 kilometers of the Don Pedro II. railway in 1879 reached the sum of 11,472:172$, or over one million sterling at present exchange, and shows an increase of 1,441:912$ over those of 1878. Passengers paid 2,355:082.

The term for registering slaves, which was to expire on the 11th inst., has been extended to the 12th of March.

EDITOR'S TABLE.

Yesterday was another very exciting day in this city, and from morning till night the place was full of the most extravagant rumours. Time, however, which cures everything, will, no doubt, and Mr. Madero, Dr. Rawson, Don Felix Frias and other noble citizens who are laboring so hard to bring about an arrangement. We consider that on Sunday this miserable difficulty reached its apogee, and every hour now brings us nearer to a solution so much to be desired. As we stated in Sunday's issue, the unanimous vote of foreigners of every nationality is that Gen. Roca should resign; his name affords a pretext for a revolution, which would ruin both province and nation, and the feeling is that the easiest way out of the present difficulty is to appeal to Gen. Roca's patriotism; the result cannot be doubted.

The news by the French mail steamer Gironde will be found in another column. We regret to see that the distress in Ireland is not

abating in the least; on the contrary, Lord Mayor Gray stated publicly last month that he believed people would be dying of hunger before three weeks were about. The Marlborough Relief Fund in Dublin has reached £19,000, £3000 of which is from London. The sum is, we fear, inadequate to meet the terrible emergency. Things look very slippery between Russia, Germany and Austria: it appears that at the mess-room room row on the Posen frontier the Russian officers absolutely drew their swords on their German guests. "Coming events cast their shadows before." The Bishop of Manchester, the most prominent divine of the Anglican Church, was married last month to a Bath lady. The Cabinet Ministers are in the field defending themselves against the recent Liberal onslaught: the Chancellor of the Exchequer made an important speech at Stroud defending the Government.

Sunday was a very exciting day. The streets were filled with volunteers, police patrols, galloping orderlies and thousands of orderly citizens looking on at it all. The Tiros Nacionales marched through the streets at one o'clock, with bayonets fixed, drums beating and flags flying, and then went home to exchange the rifle for the pomito, for, strange as it may seem, there were several comparsas in the streets. The troops of the Line marched into the city in the evening, and a very imposing sight it was, especially 'the dread artillery,' all splendid Krupp guns. The infantry looked fit for anything, and a credit to the country, but many of the men seemed very fagged. In spite of the terrible strain on public feeling all day and all the marching of Tiros and troops, and baseless rumours and alarms flying about, there was no disorder whatever, and the city was as peaceable as could be wished during the night.

The three cases (one fatal and two 'sospechoso) of yellow fever on board the Cordillera have put all the families in town again on the 'qui vive', the more so as people fear that with all the bellicose excitement going on, the Junta de Sanidad and all of that ilk are not in the best trim or humour for their responsible duties. A morning colleague attacks them severely. The summer is so far advanced that ordinary caution will prevent any disaster: There is already an autumn nip in the morning and evening air.

The nicest thing we have received by the mail is a sample of Japanese paper, a light transparent texture like the finest cumbric, but of great strength and consistency. It is so light than a whole Encyclopedia printed on it would weigh nothing to speak of: it appears to take printing ink with great clearness, but it is not quite so good for writing on.

We are glad to find that some of our subscribers here, withdrawing from the strife of party politics and money grubbing, have time and inclination to contribute papers demanding the attention of the learned societies at home. An essay on the 'Habits of the Chlamyphorus Truncatus' by Mr. E. W. White, F.Z.S., was read before the Zoological Society, London, and elicited from the President, Professor Flower F.R.S., compliments on its ability.

The fool-hardy voyagers Captain H. Bruwil and A. Coon, who undertook to proceed from Boston to Australia in the boat Golden Gate, to attend the Melbourne Exhibition, have come to grief. They left Boston on the 9th of July 1879, reached Santiago in the Cape Verde Islands on the 5th of September and set out again on the 17th. Contrary winds and seas, however, forced them to proceed westward instead of south and on the 19th of January they made Brazil and landed at Assú da Torre, a litle north of Bahia, having for 25 days, they say, lived on the sole of a slipper, the last edible that they had. When they reached the shore they were so exhausted that they fell and they had to be carried to the nearest house. They and their boat were afterwards taken to Bahia and the unfortunate voyagers were taken care of by the U. States Consul. The Golden Gate is only 19 feet long, 5 feet 4 inches wide and one and a quarter ton burden. Only one man can stretch himself out in her under cover, while the other sits in a steering well. She is cutter rigged. The *Diario da Bahia* gives these particulars.

The American corvette Marion arrived at Rio on the 31st January, from New York. She is fitted out for surveys and also for deep-sea soundings and other scientific observations.

The Montevidean papers are discussing the 'espantoso crisis' which some of them declare to exist down there. We have heard nothing about it.

The list of insolvencies amongst landed proprietors in Ireland during the year 1879 shows how hard the times are. In 1877 the number was 477; in 1878 815; in 1879 1430.

The *Ferro-Carril* of Montevideo announces that the Gas row down there is all over, the Company having suspended the law proceedings against the Junta. Lopez Jordan is in Montevideo and likely to settle down there.

We are obliged to hold over till to-morrow the report of Mr. Dumesnil, C.E., on the surveys for the extension of the Tucuman Railway to Jujuy.

The estimated amount of cash spent in pomitos during Carnival is six millions of paper dollars.

The martial aspect of the situation has induced the proprietors of the Florida Gardens to suspend all concerts &c. till the political situation becomes a trifle more 'despejado.'

Mr. Joseph Arnold has proposed to the National Government to build a light-house at Bahia Blanca, on Monte Hermoso, 150 feet over sea level, and also to lay down 10 buoys in the anchorage there, for the round sum of 8500 pats. Not dear.

The news from Corrientes is not the thing: abundance of misery and a great dearth of money, hard or soft, now prevail up there. It is, happily, seldom that we read of want in any part of this highly favoured land.

The report of the Committee appointed to inspect the rails of the Tucuman Railway shows a very large proportion of them to be in an unserviceable condition. Of course, this will give the Telfenerphobists another opportunity for a 'grito en cielo.'

The good people of Monte and Canuelas seem determined to have a railway. Our quondam and talented contributor 'Dick' has proposed a joint stock company of 20,000 shares, of $150 m/c each, to build a line to connect it with the Western Railway. Our esteemed contemporary, the *Canuelero*, considers that the money could be easily raised. The district in question is very rich, and there can be no doubt as to the line proposed being eventually a good paying speculation.

The Viejobueno cannon, which was tried at Quilmes sands on Saturday last, gave highly satisfactory results, all the officers present expressing a high opinion of this first Argentine effort in the Krupp line.

IRISH RELIEF FUND.

Morn breaketh sadly o'er an Irish home
Mid' barren fields, once rich and golden hued;
Where famine now, Alas! has over all o'er-thrown
Her mantle cold, and Nature is subdued:
The cottiers' prayer ascends, and Love with richest store,
Decrees that morn so cruel returns no more.

Noon cometh: far in a distant clime
Old Erin's sons are met; the yearning cry
Has reached their hearts, oh! unforgotten time,
Oh! unforgotten home, their help is nigh;
And by them blessed, Noon seeks that shore
Where live their thoughts, tho' they return no more.

Night falleth gently o'er the peasant shealing
But little one: no longer cry for bread,
Help now is come—and angels, upward stealing,
Entreat for those by whom the meal is spread
May we not trust that He whom they implore,
Will think on this, when Time itself's no more.

Spite of all the great political excitement, an excitement the like of which was never before equalled in this city, gold, the unerring barometer of everything, declined, which proves how immensely things have changed in this country within the last few years. At other times gold would have risen 20 per cent in the presence of such a conflict, but patacones fell five cents to-day, although the country is on the edge of an abyss that threatens every interest in the nation. Patagones opened at 31.65 and closed at 31.60, and the sales for the end of the month amounted to 365,000, and were said to be speculative.

Cedulas appear not to be affected by politics and closed at 82⅜. Treasury Bills 75½, and National Bank Shares at 59⅜.

The attendanse at the ring was not large, and at 2 o'clock the news was that all the members of the Tiro Nacional were ordered to their courteles. Later on the rumour was that a meeting would be held at the Government House at 3 o'clock, and the following gentlemen were to be present:—

General Sarmiento
Dn. Cosme Becour
" Dardo Rocha
" Arist. del Valle
" Charles Casares
" Rufino Varela
" Felix Frias
" Manuel Ocampo, sr.
" Elward Madero.

At an early hour it was known that General Roca's answer to the Madero Committee was most unfavorable and produced a very bad feeling. Yet spite of all this gold fell.

The gold sales were:—
For cash 39,849 31.65-60.
For Feb. 29th 365,000 31.75
For March 31st 84,000 31.80-85-80
Sales 488,849.

The following gentlemen have been named managers of branches of the National Bank—
Don Julio Voget in Catamarca.
" Michael Correa in Salta.
" R de la Plaza in Santiago.

Messrs Baltar & Quesada's great sheep auction in Suypacha on Sunday proved a brilliant success. The horned cattle sold for 330 m/c at corte; the fine sheep at 330 m/c, and the flocks of mestiza sheep at from 61 to 87 at corte. The sale realized 1,280,000 m/c.

The National Bank gave round to day the informe of the auditors of the Bank accounts, which we hold for to-morrow.

It will be seen by our telegram in another column that the affair of yesterday was known in Antwerp last night and questions sent out to merchants here to know what truth in the rumours.

Messrs Wissner & Chapeaurouge report the following:—Wheat arrived in week 8,822 fan. wheat and 725 bags flour. Wheat has risen 15 m/c per fan. during week, and demand is so brisk that it is thought prices will reach 250 m/c in a few days. Flour has also risen, and many millers have refused to contract at 40 m/c por arrobe. Maize has fallen somewhat.

The market at afterhours ruled less excited since it was said that Mr Madero and others were of opinion that the question would be arranged, and so far from receiving an insulting reply from General Roca such as put up on 'Change, up to 4 o'clock the Committee had received no answer whatever. It was said that Mr Sarmiento had been named Commander in Chief of the National troops, that the Chambers had, in view of the sad state of affairs, at last joined with the Governor; that another regiment had arrived at the Tigre; that 2 Ministers had resigned, and that many bad telegrams had been sent to London; we give all the rumours current on 'Change, leaving our readers to elect, but gold did not move an inch, and that is the truest sign of all. Mr. Walls came on 'Change at 4 o'clock and stated Dr Rawson, Mr Frias and others in whom the people have such great confidence were then at the Government House, and with every prospect of at last arranging the difficulty. At 5 o'clock few were on 'Change, many of the members having left for the Tiro Nacional Quarteles, and thus closed this most exciting day.

Don Luis Dominguez is spoken of as a new candidate for the Presidency.

Exchange was done at 5.29 to 31, and 4.20 in paper, and 50½ drawers. At 4 o'clock we heard of bills passed at 5.30-31 France, 5.32-33 Antwerp, ½ million francs passed. English exchange done at 50½, drawers asking 50⅝.

The letters received per Cordillera and Gironde are simply splendid as regards produce sales in Europe, with large fresh; orders every account sales received shows a profit more or less.

As will be seen by New York telegram hides in the U. States have suffered a still farther fall.

The pino cargo ex Hancock has been sold at 41 pats.; another cargo in to Mr J Shaw not yet sold.

Mr Benitz, of Rosario, was welcomed on 'Change.

Freights rule firm and much cargo offering at current rates. The Dom Pedro sails on 18th a full ship at 30 francs. Some of the agents look forward to a pause in shipments soon, owing to the large number of steamers arriving and the very advanced stage of the wool season; they think that soon steamers will be leaving here in ballast. So far cargo is very abundant, and with the fresh produce orders received per Gironde it is probable that there will be cargo enough for all up to May.

It was rumoured on 'Change that Congress will be called this year earlier than usual, owing to the severe political crisis.

The brokers and others state that owing to the intense political excitement, business is much interrupted in many branches. The loss caused to the country by the present scandalous state of things it would be difficult to estimate; and as some parties have thought proper to send alarming messages to London and Antwerp, one can imagine how Argentine stocks rule to-day in London.

Discount brokers report money very tight. The Provincial Bank discounted to-day 5 millions, but the other banks are doing nothing.

The Allan line steamer Phœnician from Glasgow and Havre arrived at Montevideo this morning. She brings a large number of passengers, 116 of whom come up here.

The Custom House receipts to-day were 44,904 pats.

At afterhours the following sales:—
Gold—
For cash 30,000 31.60
Feb. 29 30,000 31.80
Feb. 29 15,000 31.75

At 5 p.m. Market closed at 31.65 sellers and buyers at 31.60 for cash, and for end of month sellers at 31.75 and buyers at 31.70.

At the South Market the arrivals by rail and cart to-day were 50,000 ar. wool, 150 fan. wheat, 450 fan. maize in cob, 100 fan. maize in grain, and other produce.

The sales were:—

Maize—Morocho in cob at 80.
Turnip Seed—At $75.

As we noted some time ago, there is at present a very strong movement of English farmers and estancieros to the South, and camps that no one formerly ever thought of are now being bought up and new estancias formed. Messrs Baltar and Quesada have just sold at auction 2½ square leagues of camp with frontage on the ocean, down near Bahia Blanca; the land fetched 100,000 m/c per square league and was purchased by Mr John Taylor.

The concessionaire of the Gualeguaychu Tramway has asked the Government for a lot of old rails belonging to the Primer Entre Riano Railway, and we suppose they will be given. In travelling over the Buceo tramway last month we learnt that the rails were formerly a portion of the line of the Northern Railway of Buenos Aires, and in going on the tram to the baths at Pocitos we noted that the material all came from Belgium. The Manager of the Tucuman Railway reports that there are 1510 old rails and useless and only 347 good ones in stock.

It would seem from the turn things have taken that there is to be no President of the Western Railway named, and no more Bank Directors appointed. The Senate again held secret session last week; the Government proposed Don Ventura Martinez, but the house adjourned without doing anything; meanwhile the time is passing, and if Messrs Perez and Seeber do not stir themselves, we shall have no new railway deposits next season, which would indeed be a scandal.

We hold for publication a most interesting correspondence between Dn Jose F Lopez, and Mr Helper respecting the gigantic railway scheme of the latter. In a few days we shall publish the paper.

At the Peace Meeting at Mr Madero's held on last Saturday, and the result of which we already published, have the following parties attended—

"Messrs. Felix Frias, Adrogue, Nazar, Rufino Varela, Ernesto Tornquist, Unzue, Pedro Frias, Doctor Becar, Federico Toledo, Carlos Urioste, Eduardo Madero, Felix Bernal, Mariano Artayeta Castex, Amancio Alcorta, Buteler, Juan Carranza, Manuel Obarrio, Juan Ortiz de Rozas, Dr. Ramos Mejia, Lucio V Lopez, Juan Manuel Lurrazabal, Francisco Uriburu, Dr. Fernandez, Manuel Guerrica, Dr del Valle, Ledesma, Crisol, Leloir, Casey, Coronel Matias, Ramos Mejia and others."

Up to midnight on Saturday night Dn Felix Frias and other members of the committee were doing their best to bring about an arrangement, but totally failed; meanwhile it is said to-morrow Gen. Roca's resignation will be presented. Mr Tornquist is one of the members of the committee.

The meeting of shareholders of the National Bank held last week was most satisfactory; the accounts presented showed the progressive march of the Bank and its good management, and the dividend of 2 pats. per share proposed has, owing to the flourishing state of the Bank, been raised to 3 pats. per share.

The splendid dwelling house at Bella Vista, Cinco Esquinas, which cost the owner 43,000 pats. gold, and was valued at $500,000 m/c. found even at this low price no bidder. But the site on the Calle Larga Recoleta, 19x68 was sold for 110,000. Mr Gironde buyer, cost 190,000 m/c.

The following stock sales are reported:—
1,000 cows 'al corte', 10 per cent novillos at 250 m/c.
2,000 sheep 'al corte', Dolores, 38 m/c.
3,000 head of cattle, Cordoba, deliverable up to May on estancia in this province, reserved price; said to be 430 m/c.

The English papers give the following remarkable case about a sugar cargo:—

"The old adage "An ill wind", &c., was perhaps never better illustrated than by the arrival the other day of the ship Nicolette, from Java, with a cargo of sugar for a Greenock sugar refiner. It is now about 18 months since the Nicolette first sailed from the outport; but sometime after proceeding to sea she experienced very heavy weather, and sustained so much damage that she was forced to put into Sourabaya and discharge for repairs. Here she was detained for a considerable time, but eventually she was reloaded and proceeded. Meantime the value of raw sugars had begun considerably to improve (about £1 per ton), and we are credibly informed that the owners of the cargo will now net from £3,000 to £5,000 over the sum they would probably have earned had the Nicolette arrived at Greenock at the time she was naturally expected when she first sailed from Java."

Mr H L Green, shipbroker, in his circular for the mail, gives the following:—

Cargo engaged for vessels loading—
For England and Channel for orders, 11,000 salted ox and cow hides, 3,100 pipes tallow, and 200 bales wool.
For Antwerp, 43,500 salted ox and cow hides, 500 dry ox and cow hides, 750 pipes tallow, 13,350 bales wool and 2,000 bags grain.
For Havre, 650 pipes tallow and 6,000 bales wool.

The London papers received by the mail give the following about Argentine enterprise stocks etc.—

"City of Buenos Aires Trams.—The recent traffic returns show that the goods traffic, carried by night, is beginning to be developed. When the connections are fully made, this traffic will doubtless be very considerable, and greatly add to the value of a property already good."

"Central Argentine. (The Dividend).—The Directors of the Central Argentine Railway Company have just declared an interim dividend of 10s. on each £20 share of the Company."

"Buenos Aires Great Southern.—The traffic increase this week is nearly £2,000."

"The Board of Trade have received through the Secretary of State for Foreign Affairs a copy of the new law on the subject of light dues in the Argentine Republic, to take effect from January 1st 1880."

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

The Farmer's Engine.

The most complete Engine for Ploughing, Thrashing, and Road purposes yet produced.

The winding drums for ploughing are detached from the Engine in a few minutes.

The working parts are not fixed upon the Boiler, in the ordinary way, the Boiler is therefore relieved of the heavy strain thrown upon it by crank, counter shaft, and driving axle, and the wear and leakage resulting therefrom. By this arrangement the Engine is packed for shipment in smaller compass and put together more readily. Further, as none of the machinery is exposed to view, the Engine is not so liable to frighten horses.

De todos los Antisarnicos hasta ahora conocidos.

ESTE ESPECIFICO es libre de veneno y se disuelve al momento y enteramente en agua fria; puede ser empleado en cualquier estacion del ano. Ha alcanzado ya tal fama en esta Provincia que es casi el unico remedio empleado en los partidos de Chivilcoy, Mercedes, 25 de Mayo, Chacabuco, etc. Viene en tambores y cascos y se usa mezclado con 100 partes de agua.

TODAS LAS PERSONAS que han usado el Fluido Little estan contentisimas con el, como se vera por las cartas recibidas por los Agentes de los Sres. E. Casey, Eugenio Keenan, John O'Connor, John J. Gahan, George H. Scott, Michael J. Kearney, Luke Rooney, John Brown, E. Garrahan, Henry Saint John Forssman, Alejandro J. Garcia, Benito Crisol, etc.

EL PROFESOR KYLE en una carta fecha 17 de Febrero ppdo. dice—'Juzgandolo de un punto de vista quimico, con la mayor confianza puedo recomendar a los Estancieros el Antisarnico Little, y no tengo la menor duda que dentro de poco sera el favorito para la cura de la sarna, etc.

Muy importante para el Publico.

Poseido de la mayor ansiedad, y con el debido respecto al Publico, apelo muy encarecidamente a toda clase de personas, para que se dignen prestarme su apoyo, dando a conocer como tales las malas y aun peligrosas falsificaciones de mis medicinas, hechas principalmente en Nueva York, de que tengan conocimiento.

Especuladores nada escrupulosos adquieren esta broza a un precio sumamente bajo, y la venden como si fuera mis genuinas píldoras y ungüento, logrando con este reprobado trafico una enorme ganancia.

Ninguno de los expresados medicamentos son genuinos, si no llevan en el rotulo de cada bote y caja la inscripcion siguiente: Holloway's Pills and Ointment, 533, Oxford Street, London, y el sello del Gobierno Britanico, con las palabras Holloway's Pills and Ointment, grabadas en el.

Las personas que tengan la bondad de informar de algun traficante que venda las enunciadas medicinas falsas, seran muy bien remuneradas, y nunca, ni en circunstancia alguna, se publicaran sus nombres.

Píldoras Holloway

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Píldoras remueven asimismo las dolencias que suelen afligir a las Mugeres al llegar estas a la edad critica.

Unguento Holloway

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo orijen no conviene mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguento Holloway, al que millares deben la salvacion tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533, Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

☞ Se invitan al as personas que sean defraudadas por los vendedores que expenden 'Las Píldoras y el Unguento de Holloway' falsificados para que se sirvan al comunicarme los pormenores, e inmediatamente hare formalizar procesos legales contra los Ofensores, y recompensare liberalmente a los Delatores por el trabajo que se tomen, comprometiendome a que no haya trascendencia de sus nombres.
